

Chalice

Chalice was our first small ship which we sold in November 2009. She is now a privately owned house-boat and provides B&B accommodation on the River Dart. New owners Phil and Karen Hudson hope to eventually run cruises out to the Scilly Isles for smaller numbers of guests.

Chalice became a veteran of the passage to St Kilda and was well known around the Hebrides for her distinctive style and the ability to turn

up just about anywhere! Her classic style and generous layout made her a comfortable and seaworthy vessel that became well-loved by many guests - not to mention us! The most unusual thing about Chalice is that her hull and decks are all concrete, or ferrocement, a fact that astounded most people who sailed with us.
